

STOLLAQUID EC 2200

Product Code : 6926418164759

- Low Cure high performance Polyurethane based CED clear lacquer (120 - 140°C)
- % Solid = 60 ± 2
- **High Performance Glossy CED clear lacquer exclusively developed for Zinc Dye Cast & Brass architectural Hardware segment.**
- **High gloss and clarity with no orange peelfilm leading to very high DOI (Distinctiveness of Image)., need of an Architectural Industry.**
- ⇒ Superior Hardness and Chemical resistance.
- ⇒ Pencil Hardness 2H-3H.
- ⇒ Passes minimum 1500-2000 ADR.
- ⇒ 500 Hrs Salt Spray (ASTM B117) resistance.
- ⇒ Excellent perspiration cycle test performance even on brass
- **Excellent Outdoor durability and Good scratch resistance.**
- ⇒ Passes 1000 hours of weather -o- meter sunshine test
- ⇒ Passes 1000 hours of Xenon test -150
- **Very High Bath Stability**
- ⇒ Extremely stable under controlled conditions
- ⇒ Very stable even at higher temperature
- **Easy Plant Operations and Maintenance**
- ⇒ Easy bath preparation methods.
- **Single Solvent system and ease of bath operations.**
- **Wide Range of applications**
- ⇒ Architectural Hardware such as Door Handles, Cover plates, door Hinges, Sanitary fittings, etc.
